

Interim and Project Management for the Defence Industry

Companies in the security and defence industry seek experienced managers to fulfill their delivery commitments, scale production, and establish new manufacturing facilities. Our interim managers understand the industry's specific operational and regulatory requirements and reliably implement tasks, projects and programs.

Industry Expertise & Security

Experienced interim managers with a deep understanding of regulated processes, export controls, and security requirements

Flexible Managers & Ad-hoc Deployments

Rapid bridging of management shortages in production, engineering, SCM, IT, HR, sales, and compliance

Efficiency Improvement & Scaling

Development and optimization of efficient production systems, supply chains, and development cycles

Digital Transformation & Technology Integration

Implementation of AI systems, digital simulations, additive manufacturing, and cybersecurity

Finance & Reporting-Know-how

Financial expertise for growth and scaling, as well as the introduction of transparent controlling and reporting systems

M&A & Post-Merger Integration

Support in acquisitions, joint ventures, and collaborations - from strategic evaluation to integration

Optimization & Value Enhancement

Long-term optimization of operational performance and activation of value-creation potentials

Hands-on. Implementation-driven. Industry-experienced.

Project and program managers with operational industry experience – option for transition into permanent employment
